Cache Details

This Cache is hidden as part of the GREAT WHITE NORTH GEOTOUR

"http://img.geocaching.com/cache/bf5e9b38-df29-4805-94ba-b2304eb08bb1.jpg">

This cache is part of the Great White North Geotour. This multi will give you a short tour of Victoria taking you to some lovely views and places to enjoy Victoria life. The final will offer you a stunning view and a little exercise.

You must go to the locations shown in the "additional waypoints" listed below and answer the questions shown under those waypoint listings. Only after you have answered all five questions will you be able to find the final.

Once you have the answers A, B, C, and D then you must:

Multiply answer A and B together, call the result E.

Add C and D together, call the result F

Add the four digit number E to 21192. Place the result in the blanks in the following coordinate: **48deg** __. __ __ **minutes North**

Add the four digit number F to 28713. Place the result in the blanks in the following coordinate: **123deg** __. __ __ **minutes West**

The final is a short projection from the coordinates you've just found. Go to the coordinates you've just found and look down at your feet. You should see a year marked on a small marker... the last two digits are "answer G".

Add the last two digits of the year shown on the marker (answer G) to 283 call this answer "Bearing".

Thistle reflects my sentiments on this one. I am very appreciative of the help given by the cache owners, as without their assistance, we would have travelled 4000 kms without getting this one.

For the benefit of future geotour seekers, I would love to see the cache page updated. Having already completed the Halifax, Charlottetown and Quebec City legs, this was the only reason we ventured to Victoria for the day. Knowing what the time, distance and terrain commitment (I don't personally feel a 3 is enough) ahead of time would have assisted us greatly.

This was by far the most expensive cache I have ever gone after.

Many thanks again for all your help-

Well I am glad to say this one is done...our trip to the island was delayed by a full ferry..so 3 hrs behind schedule we were. Not being familiar with the lay of the land on the island and a much shortened time span to work with we feared we would not be able to get this one before we had to leave for our ferry. Probably from start to finish it took us about 4 hours, especially as we were taking roads we were not familiar with. Thanks to our phone a cacher calls that put us on the right track. Of course as we were rushing to get this done before dusk and in time to get back for our ferry I forgot my camera for the view! Advice for anyone from out of province/country...start it early in the day! TFTC took TB left coin

Burrow would work on a bit every time he came out from Ottawa. This is a great Multi and all the parts work exactly right. Thanks a lot for the great Vista of Victoria

#2400!!! What a great cache. We enjoyed gathering all the waypoints and the hike up to the final in a verrrry familiar area [;)]. We were just in from Ottawa to visit with family, and this one was on our must-do list. I only wish I would have remembered to bring a camera [: (]. Swapped travellers at the cache. Thanks Landsharkz, for a great hide. The Burrow. [^]

Sharry and I did all the research for this one yesterday. I got off to an early start this morning and enjoyed the hike up to the marker. After a quick projection the cache was in hand. I was glad to find this cache even if the vistas were a little bit blurred in the snow and fog!! I dropped off a geocoin. Thanks!!
